

Refine Physio Mobile

Practitioner Simple User Guide

Use this guide for the daily practitioner workflow: viewing appointments, booking, rebooking, maps, running late, notes, reports, approvals, updates and messages.

Training screenshot: sign-in page. Your practitioner account will only show your assigned calendar, patients and tools.

Open the app	Go to https://refine-physio-mobile.onrender.com/ on phone or computer.
Save to phone	iPhone: Safari > Share > Add to Home Screen. Android: Chrome menu > Add to Home screen.
Sign in	Use your Refine Physio Mobile email and password.
Security	Use your own account only. Do not share patient screenshots or passwords.

1. What Each Practitioner Tab Is For

Today Your calendar and today's jobs. Start here each day.	Rebook Find a time and book the patient's next visit.
Clients Open client files, appointment history, notes and reports.	Approvals Ask admin to seek case manager approval.
Updates Read admin updates and approval outcomes.	Messages Send a message directly to admin.

Phone tip: press Menu to change sections. Swipe back/browser back should return to the previous section.

2. Daily Appointment Flow

Step	What to press	What to check
Open Today	Tap Today.	Check your own calendar and today's appointments.
Open appointment	Tap the appointment.	Check patient, time, date and appointment type.
Call patient	Tap the mobile number.	Your phone should open the call option.
Use maps	Tap Directions.	Google Maps opens directions to the patient address.
Running late	Enter minutes late and tap Send.	This tells admin/reception only. It does not SMS the patient.
Attendance	Tap Arrived or Did not arrive.	Tap again if you need to undo it.
Notes/report	Tap Notes or Report.	Use the correct documentation for the appointment type.
Rebook	Tap Rebook.	Choose the next appointment time on the calendar.

Before writing anything: always check the patient name and appointment date.

3. Book A New Appointment

New appointment
Check the details before creating

Practitioner

Esther Ha

Type

Subsequent Physio SAH

Patient

Ava Taylor

Address

12 Jacaranda Street, Carindale QLD

Date

12/06/2026

Time

10:00 am - 11:00 am

Create appointment

Example: new appointment screen.

- 1. Go to Today or Rebook.
- 2. Choose an available time on the calendar.
- 3. Check the practitioner is correct.
- 4. Choose the appointment type.
- 5. Choose the patient, or create a new patient if this is needed.
- 6. Check date, start time and end time.
- 7. Add a short note only if useful.
- 8. Press Create appointment.
- 9. Check the appointment appears on the calendar.

After booking, check the appointment appears on the calendar.

Do not create duplicates. If sync is slow or failed, wait briefly or message admin before booking the same appointment again.

Use these appointment types correctly

Initial Physio	Use for initial physiotherapy assessment appointments.
Subsequent Physio	Use for normal follow-up treatment appointments.
Equipment Trial	Use when the appointment is for equipment trial/reporting.
Travel	Use for travel blocks.

Unavailable	Use when you need to block your calendar.
-------------	---

4. Rebook A Patient

1. Open the patient's current appointment.
2. Tap Rebook.
3. Use the calendar to find a good day and time.
4. Select the appointment time.
5. Check patient, practitioner, appointment type, date and time.
6. Press Create appointment.
7. Check the new appointment appears on the calendar.

Easy rule: rebook from the calendar view so you can see real gaps, not just guess a time.

5. Maps, Phone And Running Late

Initial Physio SAH
Ava Taylor
 Friday 12 June at 10:00 am for 60 minutes

Mobile
 0400 111 111

Address
 12 Jacaranda Street, Carindale QLD

LATE NOTICE **Min** **Send**

Arrived **Did not arrive**

Directions **Rebook**

Report **Notes**

Example: appointment screen with phone, directions and late notice.

Directions	Open appointment and tap Directions. Google Maps opens with the patient address.
Call patient	Tap the patient mobile number. Your phone opens the call screen.
Late notice	Enter how many minutes late and tap Send. This goes to admin/reception only.
Address problem	If the address looks wrong, message admin before travelling if possible.

6. Put Treatment Notes In

Use Notes for normal subsequent physiotherapy appointments. Notes are due on the same day as the appointment.

The screenshot shows the 'Refine Physio Mobile' app interface for entering 'Treatment notes'. At the top, there's a header with 'Refine Physio Mobile' on the left and 'Treatment notes' on the right. Below the header, there's a section titled 'Treatment notes' containing a text input field with the patient's name 'Ava Taylor'. Underneath is a button labeled 'Copy last appointment notes'. The form is divided into three sections: 'Subjective' with a text input field containing 'Patient reports improved confidence with walking inside the home.', 'Objective' with a text input field containing 'Practised sit to stand, gait retraining and balance exercises.', and 'Plan' with a text input field containing 'Continue home exercise program and review next appointment.'. At the bottom, there are two buttons: 'Save draft' and 'Sign note'.

Example: treatment notes screen.

1. Open the appointment and tap Notes.
2. Tap the patient name if you need to open the client file first.
3. If available, tap Copy last appointment notes.
4. Edit the copied note so it matches today's visit.
5. Fill in the note sections clearly.
6. Tap Save draft if you are not finished.
7. Tap Sign note only when complete.

Before signing notes

- Correct patient and appointment date.
- Information is accurate for today's visit.
- Treatment and plan are clear.
- Copied text has been edited and checked.

After signing, notes show as completed and are saved in the client file.

7. Put Reports In

Reports are for Initial Physio Assessment appointments and Equipment Trial appointments. Reports are due within two days.

Refine Physio Mobile

Report

Report type

Initial Physiotherapy Assessment Report

Assessment findings

Recommendations

Photos for PDF

Add photos and write notes under each photo.

Save draft

Sign off for admin review

Example: report screen.

Initial Physio report	Complete assessment findings, outcome measures, recommendations and plan.
Equipment Trial report	Complete trial summary, equipment options, explanation, recommendations and photos if needed.
Photos	Attach photos and write notes under photos so the PDF explains them.
Outcome measures	Choose all relevant measures and enter the result/score.
AI polish	Use AI to turn your own dot points into professional wording. Always review before signing.

Report steps

1. Open the appointment and tap Report.
2. Fill out the report sections.
3. Add photos and photo notes if needed.
4. Check the wording carefully.
5. Tap Save draft if not finished.
6. Tap Sign off for admin review when ready.

Sign off for admin review means admin needs to review the completed report. Do not use this for unfinished drafts.

8. Ask Admin For Approval

Use Approvals when admin needs to contact a case manager for approval. This is not for normal booked appointments.

Approval request

Send to admin

Approval type

Ongoing physio

Patient

Ava Taylor

Reason

Request approval for ongoing weekly physiotherapy due to ongoing falls risk.

Send approval request

Status

Approval sent

Example: approval request screen.

Equipment trial	Request approval for an equipment trial.
Ongoing physio	Request approval for ongoing treatment.
Frequency change	Request approval to change treatment frequency.
Other approval	Use for another case manager approval request.

Approval request steps

1. Open the appointment or go to Approvals.
2. Choose the approval type.
3. Write a short reason.
4. Send the request.
5. Check it says approval sent.
6. Watch Updates for the result.

Include what you need approved, why it is needed, and whether it is urgent.

9. Message Admin And Read Updates

Messages
 Message admin directly

Admin
 Please confirm when Ava's report is signed.

You
 Signed off now. Please review before sending.

Message admin
 Running 10 minutes late to my next appointment.

Send message

Example: message admin screen.

Updates
 Read admin updates

Rebooking update
 Ava Taylor has been rebooked for Monday 9:00 am.

Approval outcome
 Ongoing physio request approved.

Mark as read

Example: updates screen.

Messages	Use this to message admin directly.
Updates	Use this to read admin updates, rebooking updates and approval outcomes.
Unread items	Open unread updates so the list stays clear.
When to message	Message admin for sync issues, wrong details, missing address, report upload issues or urgent scheduling help.

Good message examples

- "Running 15 minutes late to Mary Smith, 10:30am appointment."
- "Please check this address before I travel."
- "Report signed off. Please review before sending to case manager."
- "The appointment did not appear after I rebooked the patient."

10. Client Files And Troubleshooting

Patient file
Ava Taylor

Details **Appointments**

Notes **Reports**

Mobile
0400 111 111

Address
12 Jacaranda Street, Carindale QLD

Notes
Completed notes show newest first.

Example: patient file screen.

Open client file	Tap the patient name from an appointment, notes screen or client list.
Details	Shows patient details. Practitioners should not see case manager details.
Appointments	Shows past and upcoming appointments.
Notes	Shows completed notes, newest first.
Reports	Shows completed reports for that patient.

If something goes wrong

App says sign in	Log out and log in again. Tell admin if it keeps happening.
Appointment missing	Tap Sync Now if available, wait briefly, then message admin.
Wrong practitioner	Stop and message admin. Practitioners should only see their own schedule.
Cannot call patient	Check a mobile number is recorded. Message admin if it is missing.
Upload failed	Do not recreate the report. Message admin with the patient/report name.
Layout looks odd	Refresh the page. If using home screen app, close and reopen it.

Final rule: if something looks wrong, pause and message admin before changing records.

Desktop View Example

The desktop version has the same tools with more space for the calendar and lists.

Training screenshot: desktop layout example. Your live practitioner view may look different depending on your role and assigned appointments.

Practitioner Checklist

- Open Today at the start of the day.
- Use Directions before travel.
- Send Late Notice if delayed.
- Complete notes on the day.
- Complete reports within two days.
- Use Approvals for case manager approval requests.
- Use Messages for admin help.
- Do not create duplicate appointments if sync is slow.
- Log out on shared computers.
